QA Cal Services

Whatever you require for your Qualification, Validation, Calibration or Monitoring needs, we've got covered. With QA CAL you get a dedicated and experienced partner for even the most challenging GMP level projects.

QUALIFICATION SERVICES

- **Equipment Validation Services**

- Autoclave
- Depyrogenation Tunnel
- Lyophilizer
- Manufacturing and Holding Vessel
- Dry Heat Sterilizer

- **Utility Systems Validation**

- Water System
- CIP System
- SIP System
- Nitrogen Gas
- Compressed Air

- **Facility Qualification.**

- **Clean Zones Qualification**

- HVAC System
- Isolators
- Laminar Air Flow
- Dynamic Pass Box
- Bio Safety Cabinet

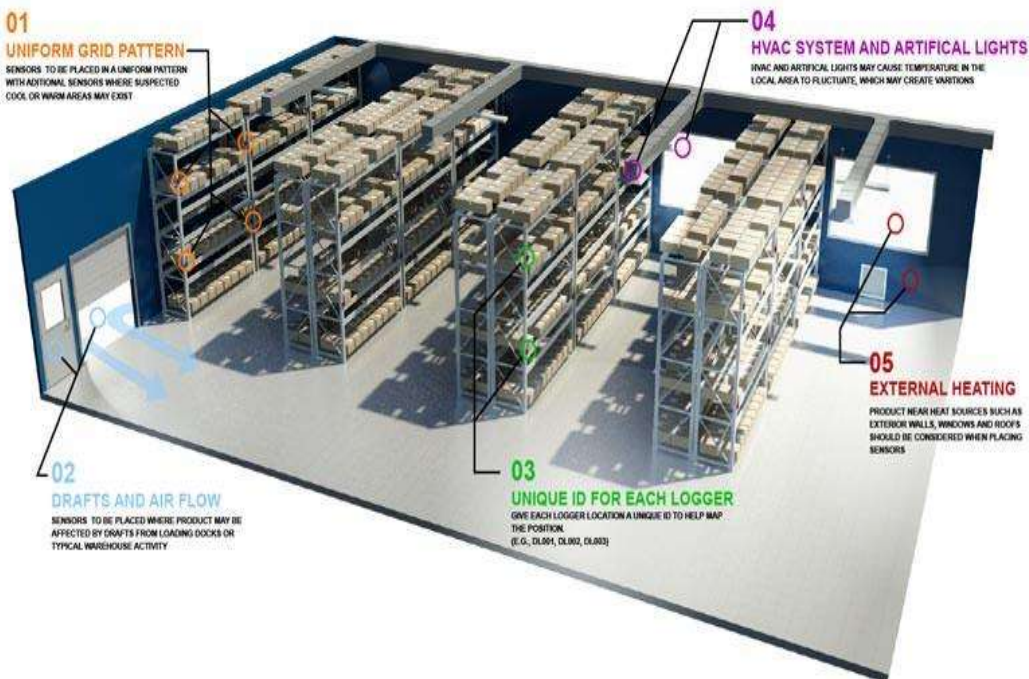

THERMAL MAPPING

- **Area Temperature mapping**

- Warehouse Temperature & RH Mapping
- Cold rooms
- Other temperature-controlled spaces

- **Equipment Temperature mapping**

- Deep Freezers
- Refrigerator
- Stability Chamber
- Incubator
- Hot Air Oven
- Drying Oven
- Vacuum Oven

CALIBRATION

- To mention a few Instruments, we calibrate are:

- Pressure/ Temperature Gauges
- Pressure Transmitters
- Compound Gauges
- Transmitters
- Temperature Indicators
- Vacuum Gauges
- Temperature Controllers
- Magnehelic Manometers
- Timers
- Stop watches
- Hour meters
- RTD/ TC Sensors
- pH/ Conductivity meter etc.

Mechanical Calibration

Pressure Calibration

Flow Calibration

Pipette Calibration

Electrical Calibration

Temperature Calibration
